

Model	Product	code
SUZUKI DL 650 VSTROM 2016	REAR HUGER	RH- SDL650/16+L

CONTENTS

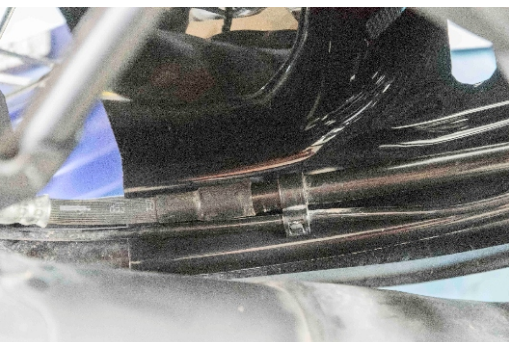

- 1x Plastic Fender
- 2x screws M6X15
- 1x Screw M5X15

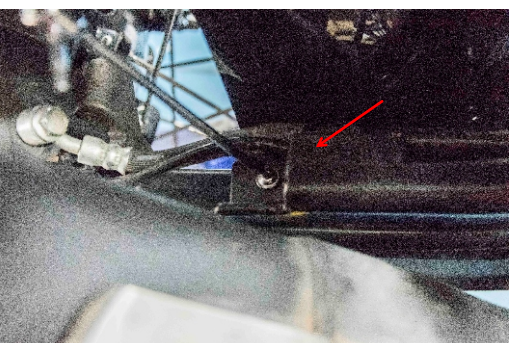

First remove the cover of the chain in the left side of the motorcycle.

On the right side remove the base that holds the tube of the brake.

Fitt the fender on the spot, on the right side it should be under the brake tube. Check the photograph.

Reattach the base that holds the tube of the back brake and screw it again with the new screw (M5X15)
