

# INSTRUCTIONS

**MODEL :** KTM DUKE 690 '09

**PRODUCT :** SEAT COVER

**CODE :** SC-KTMD/09

## CONTENTS

Plastic seat cover  
2pcs. Support brackets  
2pcs. M6x10 Bolts  
2pcs. M6 Clip nuts  
2pcs. Foam tape  
1 key

## MATERIAL SPECIFICATIONS

The product's material, made of **ABS** plastic with acrylic exterior layer, can be placed on your bike without requiring painting but if you want it painted, all paint companies have equivalent machinery at their disposal. If you want to paint it yourself, you should contact them to inform you on what you will need and how to do it.

### Placement

#### **OUR COMPANY SUGGESTS THE INSTALLATION BE CARRIED OUT AT A WORKSHOP OR BY QUALIFIED STAFF**

- Remove the seat. Optionally, you can remove the seat's belt.
- Turn the seat upside down and place the cover on the co-driver's seat, making sure it fits firmly, especially on the rear end (Photo No 1).
- Place the support brackets (left & right) to hold the seat in place and screw the bolts on from the outer side (Photo No 2).
- Make sure the cover has a perfect fit.
- Place the seat in its original position.
