## Centerstand SUZUKI DL650

## Installation Instructions

Parts to be installed.

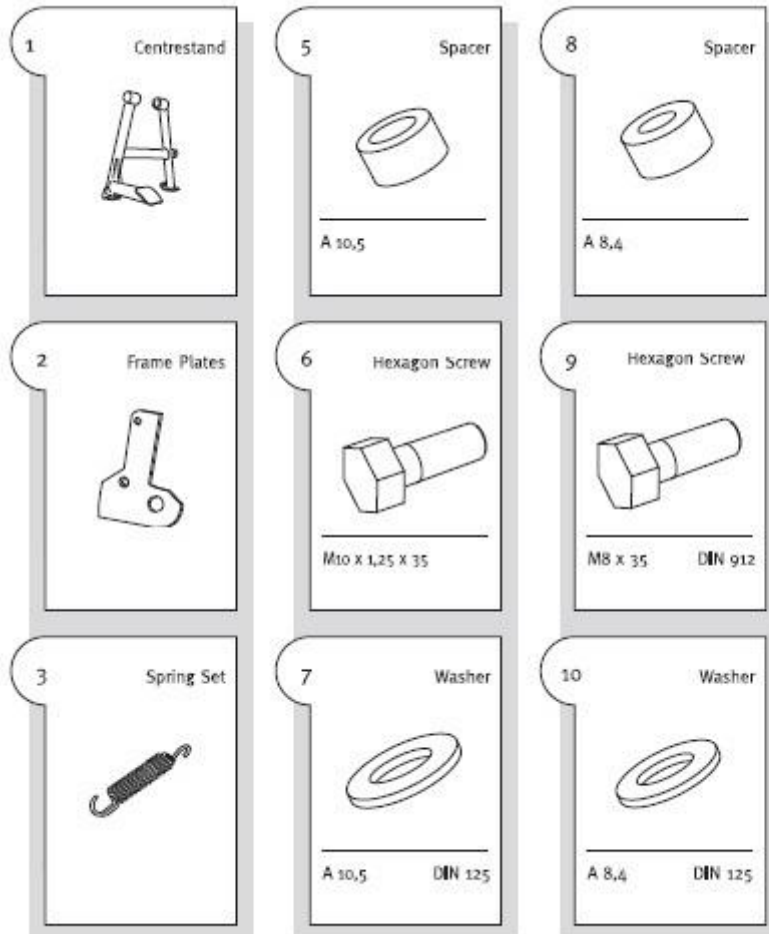

Photo 1

**!** Use liquid thread locker to secure the screws!

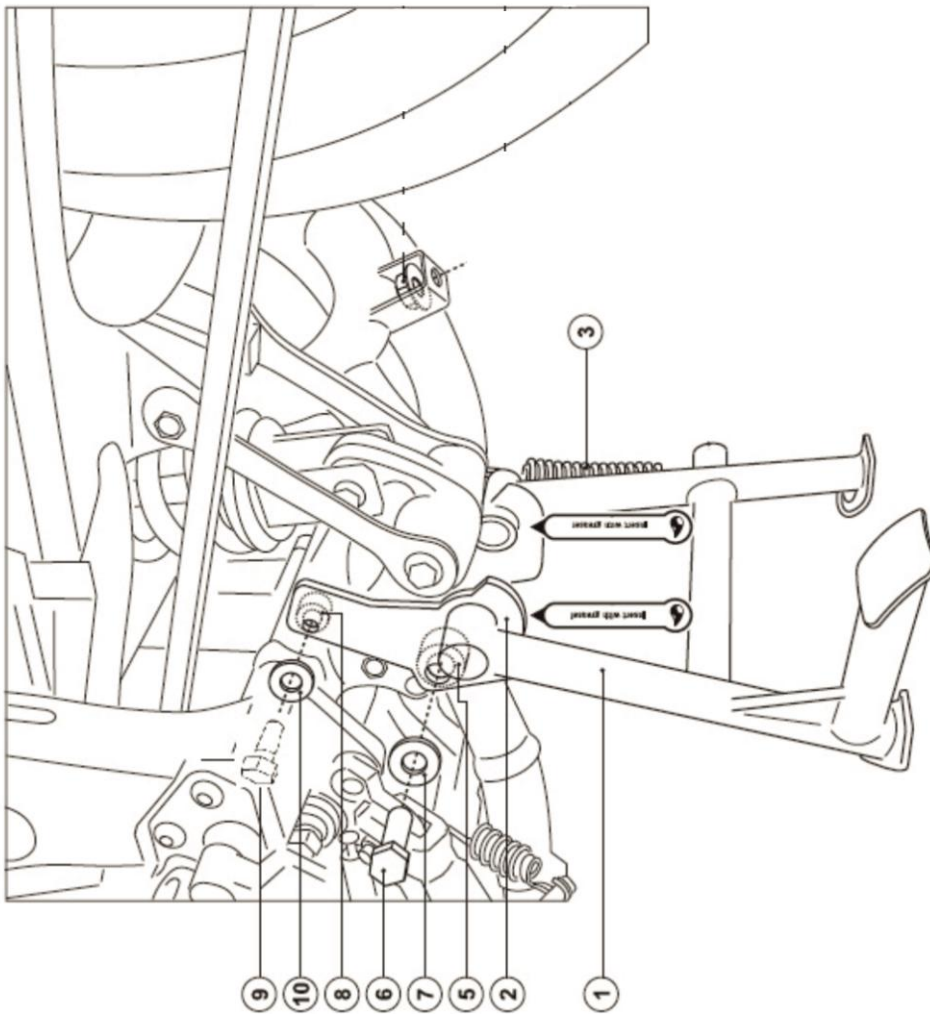

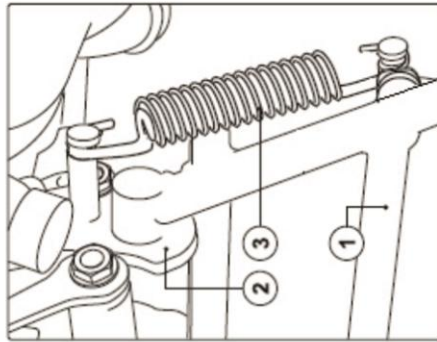

Photo 2

**Step 1:** Have the bike on the side stand.

**Step 2:** Place part 2 to the left side of the bike (use the one with the rubber stop). Use bolts 5 and 9 with the washers 7 and 10 and also the spacers 5 and 8 to mount and fix it on the bike as photo 2 shows. It is recommended to use liquid thread locker.

**Step 3:** Place the centerstand on the part you just installed.

**Step 4:** Fit the second part 2 (the one with the extension for the spring) on the centerstand and fix it on the right side of the bike. Use bolts 5 and 9 with the washers 7 and 10 and also the spacers 5 and 8 to mount and fix it on the bike as photo 2 shows. It is recommended to use liquid thread locker.

**Step 5:** Have the one end of the spring (part 3) passed through the hole of the side spring extension located on the centerstand. Using a flat screwdriver place the other side of the spring on the spring extension of the part2. It is recommended to have the centerstand horizontal while placing the spring.
